Notes

1. 127 talks in 56 months post semi-retirement (rethread tyre phase ☺ bebe) means more than 2 a month. Highest in 2022 (40), then 2021 (27), 2019 (25) and 2020 (15 – year of Covid start), and so far, 13 in the first quarter of 2023 (a faster run rate than 2022, more than 4 a month). Also just 5 in 2018.
2. Hence, its actually accelerating notwithstanding more “ceremonial” type of speeches in the later years as more responsibilities come through. Earlier years also saw development of more content.
3. Most topics revolve around popular subjects like Khazanah story, Leadership, State x Markets, Finance x Society, Transformation, Development and Islamic Finance. Some specialist talks around BRI China, Travels,
4. Thank-you for those who have been helping!
